## Product Description

The advantage of Artificial Carnation Bouquet is its long-lasting freshness and authentic touch. Compared with natural flowers, artificial carnation bouquets are less likely to wither and retain their bright appearance for longer, making them ideal for beautifying the environment over time.

The artificial carnation flower is made with high-simulation technology and feels real to the touch, making it difficult to detect the difference between it and real flowers. This gives the artificial carnation bouquet a more realistic appearance, as if it were carefully placed raw flowers.

These features make fake carnations not only beautiful but also practical interior decorations, suitable for various occasions, such as Mother's Day holiday gifts, weddings, parties, holiday celebrations, etc.
