Product Description

This artificial gardenia bouquet is dominated by white gardenia flowers, symbolizing purity and beauty, and is the perfect witness for wedding occasions.

Symbol of purity: White gardenia symbolizes purity and freshness, injecting pure beauty into the wedding, witnessing the happy moments of the newlyweds, and becoming a unique attraction in the wedding.

Delicate simulation: Each gardenia flower is carefully designed and uses high-simulation technology to show the lifelike and detailed petals and the unique shape of the gardenia flower, giving people the feeling of being in a sea of flowers.

Long-lasting floral arrangements: Compared with real bouquets, these silk gardenia flowers are not restricted by seasons and climates and maintain long-lasting beauty. Newlyweds can preserve this special wedding memory for a long time.

1. This model is gardenia fake flower. The overall workmanship is highly simulated. The flower shape and style are very suitable for the current popular trend.	
2. Artificial gardenia is made of imported silk fabric, which is not silky and has smooth edges. The flowers are full and three-dimensional, and the overall shape is stable and not deformed.	
3. The overall shape of the flower branches is plump and vivid, with two flowers and two buds distributed naturally, and the overall full and three-dimensional effect of the flowers is good	
4. The flower branches of fake gardenia flowers adopt injection molding technology, which is flexible and has an internal iron wire keel support. They can be shaped at will and are easy to bend and cut.	

5. The branches of the flower branches are flat, the color has a real gradient, and can be bent freely.

6. The buds of silk gardenia flowers have a strong sense of movement, which increases their vividness. They are made of silk cloth and are full and three-dimensional without turning around.

7. The blades are made of imported silk cloth, and the gluing process is used to make the blades stronger and not collapse, and there is a keel on the back to support it and not collapse.
